

Office 365 for Small Businesses

“It’s the
real deal, and it blows away
Google Apps.”

- Edward F. Moltzen, CRN

Move to the cloud? If you’re like most small businesses then chances are you’ve struggled with this issue—and with good reason. After all, you’ve got a lot to think about. What is the cloud really going to cost? Will it enable your people to work how and where they want while keeping you in control? How do you know your data is secure? Don’t worry. We hear you.

That’s why we recommend Microsoft Office 365. Office 365 is a cloud-based service hosted by Microsoft that brings together familiar Microsoft Office desktop applications with business-class email, shared calendars, instant messaging (IM), video conferencing, and file sharing. With Office 365, you’ll receive secure, enterprise-grade tools for a predictable monthly cost and no upfront infrastructure investments. Get your work done faster from virtually anywhere, working with the Office you already know!
